

COMMAND SPANISH

COURSE OVERVIEW

Command Spanish®, Inc. is the country's leading provider of occupational Spanish language training materials and programs for the workplace. Its programs and materials are the result of years of research and development by language, curriculum, and translation specialists. The company's objective is to provide learner-friendly language programs and training classes that require **NO PRIOR KNOWLEDGE OF SPANISH**. Command Spanish® language classes eliminate the tedious grammar instruction found in most other language programs.

In addition to our language programs, Command Spanish®, Inc. offers a full range of cross-cultural training seminars and programs designed to eliminate cultural misunderstandings in the workplace between Hispanic and non-Hispanic persons. Our clients include thousands of individual professionals representing hundreds of municipal, county, state, and federal agencies, as well as private organizations and businesses

Adults attending an occupational Spanish class learn only the Spanish phrases, questions, and commands needed for their specific job requirements. There is no attempt to teach the whole language. Nurses learn how to assist and treat patients in Spanish, not to discuss the weather. Police officers are taught how to arrest criminals in Spanish, not to order tacos in a restaurant, etc.
