ACT Preparation Course

\$149

This course will help students gain the skills necessary to excel on the ACT Exam. This six session course provides a review in each of the four sections on the ACT Exam: Math, English, Science, Reading as well as test taking skills. After completing this course students should have the ability to identify strategies that will help them prepare more thoroughly, become more familiar with the format of the ACT Exam, and to overcome anxiety when taking the exam to perform more effectively. ****First meeting is a two-hour parent/child/instructor meeting.** Textbook required. (6 sessions, 5 are instructional)
