

CONVERSATIONAL SPANISH LEVEL 1

COURSE OVERVIEW

Did you take Spanish in high school, college, or a million years ago and think you have forgotten it all? Conversational Spanish level1 will help you brush up on the basics of Spanish. Emphasis is on conversational Spanish similar to Beginner at a little faster pace. No prerequisites.

COURSE OBJECTIVE

The goal of this class is for the student to review the concept of the way the Spanish language works through conversation. As a child one's native language was learned through models of questions and model responses. Students will learn to ask questions, understand what is being asked and then will be able to form responses in the target language. Vocabulary building enables students to carry on varied conversations.
