

HAZARDOUS MATERIALS AWARENESS

COURSEOVERVIEW

This class will cover the OSHA Hazardous Waste Operations and Emergency Response Standard (29 CFR 1910.120) first responder awareness level. Employees at the awareness level are the ones likely to witness or discover a hazardous substance release and have been trained to initiate an emergency response sequence by notifying the proper authorities of the release.

LEARNING OBJECTIVE

Topics for this class include:

- Recognition and identification of hazardous materials.
- OSHA and DOT regulations.
- Health effects of chemicals.
- Using chemical references to identify a chemical.
